**The Empty Tomb**

There are events and experiences that have stopped us in our tracks. And have challenged our skepticism. Many times these events and experiences have deepened our faith life. The only explanation we can give them is "God." One woman had such an experience. She told two others who saw what she saw. Only one of these witnesses saw God's hand in the experience. The empty tomb proved a transcendent event.

Have you ever seen God's hand in the unusual? What was it? How did you know God was responsible for the event?

The scene of the empty tomb and two reactions: skepticism (Mary Magdalene) and faith (the beloved disciple). Many experiences in life present us with the same options. Was it the activity of the evil? Or, was it the hand of God? Like St. Paul insisted, these experiences need to be tested. But we should not draw hasty conclusions. Instead, we should look to the source of the experience and its "aftershocks." Does good come from the experience or more evil? And if good does result, was God its ultimate cause?

After all, how did you know that the death of Jesus was the will of God? Look to the empty tomb. You will see the Resurrection!
